for permanent commission in the Army, but feels that he would prefer work with us and is willing to forego the former in order to gain experience in intelligence.

2. [redacted] is scheduled to be called up for active duty in July 1956. He will therefore come to us first for about a year during which time he should become well grounded in our basic techniques.

3. He appeared to be a businesslike, well balanced, very direct and capable young man who is well motivated for Government service. He is not prepossessing looking, but has a good smile, manly bearing, and generally pleasant manner.

4. His tests results are generally very good. [redacted] estimates that he has a great deal of nervous energy; works rapidly on structured, well-defined tasks; but is deliberate when making decisions; is sensitive to people; has need to see the practical results of what he does; and is somewhat dependent on recognition and approval of others. It may be that he is reluctant to take initiative except in a well-defined situation, and is not a spontaneous leader in an informal setup. On the other hand, he has done well in his ROTC Program.

5. He has had his pre-employment medical examination. It is requested that action be initiated to process him at GS-5. The extra PHS in his file should be forwarded immediately to [redacted] to facilitate processing of security clearance.
